

Shenandoah Shenanigans

On this level two adventure trip, campers will experience the best of what the Potomac River valley has to offer. Experience whitewater at an introductory level as we paddle both the Shenandoah River and Antietam Creek. These two water-based days will be separated with a day of hiking in the most plant-diverse section of the Appalachian Trail in West Virginia. To cap it all off we will have some aerial fun at a nearby aerial park and zipline!

Day	Activity	Location	Ending Location at Night
